BUSINESS PLAN	PRO PLAN

Business – Dito naman, ginagamit lang eto sa mga company business, I.e. networking company at MLM. Pero dahil kasi ibang ang ads maraming user at mag-auploads – unlike sa MLM more on viewing lang.

Pro – Kung ako lang masusunod mas gusto ko dito kung shared hosting lang tayo, kasi meron etong dedicated ip, meaning pwede tayong magkaroon ng SSL – Secured Socket Layer / knows HTTPS.

- Ang isang dedicated ip mura lang naman, pero sa isang server na meron dedicated ip mahal kasi sa maintenance, kaya mas mura na eto.

ENCHANCED PLAN	PREMIUM PLAN

Please, paki-check yung pricing dito, first month mura lang, pero sa renewing na ang mahal, monthly ang usapan dito pwede din naman isang bagsakan. 3mos/6mos and 12mos

Kagandahan ng dedicated, mismo tayo lang ang gumagamit sa server na eto, sa traffic and even the CPU demands, at sa mga HD Images kaya natin i-display

At kagandahan pa, 4x processor and 8gb / 16gb ang memory natin, at ang pinaka gusto ko dito 10Terabytes to 15Terabytes ang Bandwidth Speed.. kahit hundred thousand user mag-access kaya natin.

Pero siguro later na eto, sinama ko lang eto para magkaroon na tayo ng mga idea. Kasi total starting palang tayo kaya mahirap pang implement ang ganitong setup.

Note: yung price na nakikita niyo diyan hindi pa kasama yung additional registration ng domain. FREE 1 Year Domain, pero kung gagawin natin 3 years plus \$12.99 x2. Append sa price. At ngayun ang price niyan maaring magbago sila without prior notice.
